## Hydra-Shine Lipstick

CATEGORY: COLOUR COSMETICS

### INGREDIENTS

Phase	Ingredient	INCI	Supplier	Weight (%)
A	Joboba oil	Simmondsia Chinensis Seed Oil	OQEMA	Up to 100
	BergaBest MCT Oil 70/30	Caprylic/Capryl Triglycerides	Berg+Schmidt	30
	Hyaluronic Tucuma Extra	Astrocaryum Vulgare Seed Butter	Citróleo	2
	Kester Wax K72	Behenyl Behenate	Koster Keunen	20
	Kester Wax K82P	Synthetic Beeswax	Koster Keunen	5
B	Pigment	CI 73360	OQEMA	5

## METHOD

---

1. Mix Phase A, heat to 85°C and homogenize.
2. Add Phase B and let disperse during 30 min.
3. Pour at 65-68 °C.

## \_\_APPEARANCE

---

Rosa colored glossy lipstick.

## HIGHLIGHTS

---

The structuring power of Kester Wax K72 combined with the plasticizing effect of Kester Wax K82P creates a perfectly shiny and stable lipstick formula. Enriched with Hyaluronic Tucuma Extra, it boosts hydration and helps stimulate the skin's own hyaluronic acid production for smoother, plumper lips.
