C	NovaColl SK™	sh-Polypeptide 47, Collagen	Cambrium	3
	Liftalize	Water (and) Prunus Persica (Peach) Resin Extract (and) 1,2-	Citróleo	1

		Hexanediol (and) Ethylhexylglycerin		
D	Lactic acid	Lactic Acid	OQEMA	q.s.

METHOD

1. Mix Phase A and B separately
2. Add Phase B to Phase A.
3. Heat Phase A/B to 85°C and homogenize.
4. When under 40°C and Phase C.
5. Adjust the pH to 5.0-5.5 using Phase D.

APPEARANCE

Transparent, slightly viscous liquid.

HIGHLIGHTS

Infused with NovaColl SK™, the first 100% skin-identical, micro-molecular collagen active for anti-aging, this formula promotes skin rejuvenation, reduces the appearance of wrinkles, and restores a youthful glow. Enhanced with Liftalize, a botanical extract complex with a Botox-like effect, it provides additional lifting and smoothing benefits for visibly firmer, more radiant skin.
