## Our bussines

For more than 100 years we have found success in being one of the leading global players in the chemical distribution market, built on strong, long-lasting relations with both our suppliers and customers. We are proud to have numerous well-known suppliers entrusting us with the distribution of their high-quality products. Since OQEMA's founding in 1922, we have served as an interface between chemical manufacturers and the chemical processing industry.

With close to 1,500 employees throughout 25 European countries, we can provide a full service along the supply chain, including procurement, product development, individual mixing, logistics and manufacturing.

OQEMA offers a highly dynamic and continuously expanding product portfolio of more than 15,000 products.
