

GEN-Z CLEANSING STICK

Gen-Z Cleansing Stick is an oil-to-milk cleanser that effectively removes makeup, sunscreen, and urban impurities. The solid balm melts on dry skin and transforms with water into a light milky emulsion that rinses off without residue.

BlockACNE by LABIO targets blemish-prone skin by helping regulate sebum, reduce breakouts, and support a clearer complexion while remaining gentle on sensitive skin.

Pracaxi ProSence, derived from Brazilian pracaxi oil, provides soothing and calming effects, helping reduce redness and support the skin barrier. The result is a travel-friendly cleansing routine that leaves the skin purified, comforted, and balanced.

METHOD

1. Mix Phase A and heat to 85 °C, ensuring thorough mixing of all components.
2. Add Phase B and continue stirring at 1500 rpm until the powder is homogeneously incorporated into the oil phase.
3. Allow Phase A/B to cool down while stirring continuously.
4. In the meantime, premix Phase C.
5. When Phase A/B reaches 65 °C, add Phase C and continue stirring.
6. Pour into the mold at 62 °C.

APPEARANCE

White, soft-spreading, sorbet-like stick.
